The Right Connection®

13SCC-Series Clever Clamp™

CONSISTENT, CONTROLLED COMPRESSION - EVERY TIME

The patent pending Dixon 13SCC-Series Clever Clamp offers a new perspective on an age-old design. With its easy-to-use lever closure, it provides fast and consistent compression on both rubber and PTFE gasket connections every time. No torquing, no tools; just clamp and go!

Application
- Can be installed anywhere a traditional tri-clamp is used

Sizes
- 1-1/2", 2", and 3"

Features
- Consistent compression of the gasket with every use:
  - No concern for damage to gasket from overcompression or creating internal bacteria traps from over or under compression
  - ASME BPE capable
- Adjustable for both rubber and PTFE gasket styles
- Fast installation, no torquing tools required
- Threadless design, eliminates risk of damaged threads leading to improper tightening of wingnut
- Lockout ready design - aligned holes in clamp body make cable locking fast and easy
- Self-locking lever and color-coding options available

Material
- 304 stainless steel

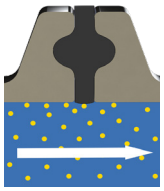
Compression Comparison

Proper Compression

Clever Clamp

Gasket sits flush with tubing allowing particles to flow smoothly through the process line



Over Compression

Under Compression

Other Clamp Styles

Gasket does not sit flush with tubing causing gaps where bacterial traps form in the process line
