FGR Couplings
Rep E and Grip E Couplings

New

This new coupling is time saving and eliminates the need to weld, thread, or flange. It is lightweight and compact, detachable and reusable, absorbs vibration and movement, and has a reliable double-lip sealing system.

Rep E Coupling

Applications

- Construction, water management, industrial pipelines, ship building
- Designed for the quick installation without service interruption

Sizes

- Pipe O.D. sizes 1.315”-48”

Features

- Axial nonrestraint
- Standard EPDM seal (NBR and FKM also available as specials)
- Joins pipes of same or dissimilar material; suitable for metal and plastic pipe connections
- Metal strip insert (only replaceable component)

New Dixon part #	Description	Comparable to part #
05729360048	1-1/2” 316 stainless steel Rep E pipe coupling	STR35001
05729360060	2" 316 stainless steel Rep E pipe coupling	STR35151
05729360073	2-1/2” 316 stainless steel Rep E pipe coupling	STR35201
05729360088	3" 316 stainless steel Rep E pipe coupling	STR35351
05729360114	4" 316 stainless steel Rep E pipe coupling	STR35651
05729360141	5" 316 stainless steel Rep E pipe coupling	STR35901
05729360168	6" 316 stainless steel Rep E pipe coupling	STR36051

FGR Couplings

The Right Connection®

Grip E Coupling

Applications

- Construction, water management, industrial pipelines, ship building
- Designed for the quick installation without service interruption

Sizes

- Pipe O.D. sizes 1”-24”

Features

- Heavy duty lock bars
- Anchoring ring with conically stamped teeth
- Axial restraint
- Standard EPDM seal (NBR and FKM also available as specials)
- Joins pipes of same or dissimilar material; best for metal to metal connections
- Metal strip insert (only replaceable component)
