

Proposition 65 Information	1100	Water	1121 - 1122
Hose and Coupling Safety	1101	Water constants and formulas	1121
General Safety Information	1101	Water discharge table.....	1121
Safety Is Everyone's Job	1102 - 1104	Conversion table - feet of water to inches of mercury	1122
Be Safe	1102	Feet head of water to PSI	1122
S.T.A.M.P.E.D.	1102	Thread Information	1123 - 1128
Force chart	1103	Pipe threads	1123
Safety products and recommendations in the DPL.....	1103	NPT vs. BSP (British Standard Pipe)	1123
MSHA regulations	1103	Identifying threads	1124
OSHA regulations.....	1104	Thread types.....	1125
Value Add Programs.....	1105	Thread chart for hydraulic fittings	1126
Solutions on Site vans by Dixon®	1105	Fittings size chart.....	1126
Best practices safety assessment.....	1105	Thread dimensions	1127
Hose coupling workshop.....	1105	Normal engagement length of NPT thread.....	1127
Material Selection	1106 - 1111	Thread sealing tips	1128
Selecting materials	1106	Flange Dimensions	1129 - 1130
Corrosion resistance ratings.....	1106 - 1111	Flange bolt tightening sequence.....	1129
Fraction - Decimal Chart.....	1112	Flange diagrams	1129
Conversion Constants/Formulas	1113	ANSI flange dimensions	1130
Measures of pressure.....	1113	Pipe Dimensions	1131
Length conversions constants.....	1113	Dimensions of seamless and welded steel pipe	
Weight conversion constants.....	1113	ASA-B36.10 and B36.19	1131
Circumference of a circle	1113	Cross reference from NPS to DN specification	1131
Right cylinder.....	1113	Valve Selection Guides	1132 - 1133
Temperature	1114 - 1116	Valve selection guide.....	1132
Temperature conversions	1114	3-way ball valve flow options	1133
Steam temperature and pressure conversion guide	1115	BPE DT Table Call Out	1134
Pressure - temperature ratings	1116	Pipe Gasket Sizing Guide	1135 - 1136
Air	1117 - 1120	Particulate Reference Chart.....	1137
Air velocity in a pipe.....	1117	Clamp Fittings and Gasket Sizing Guide.....	1138 - 1140
Air volume discharged from pipe.....	1117		
Boyle's law	1117		
Air supply requirements.....	1117		
CFM vs. PSI for nozzles	1118		
Air receiver capacities	1118		
Air hose friction.....	1119		
Max. rec. air flow (SCFM) through ANSI metal pipe.....	1120		
Suggested pipe size for compressed air flow.....	1120
