W-Series Hydraulic Couplings

Application

- Designed for applications requiring a coupling that can be connected under residual pressure with minimum spillage and air inclusion
- · Widely used on dump trailer wet-line hydraulic systems and oil field equipment
- · Not recommended for continuous hydraulic impulse applications

Features

- Interchangeable with Aeroquip 5100 series, Parker 6100 series and Snap-Tite 78 series
- Contact Dixon® for pressure ratings and other technical information

Specification

 Nitrile rubber seals are standard, providing a temperature range of -40°F to 250°F (-40°C to 121°C)

brass
