New

102-Series Stainless Steel Fittings

DIXON
The Right Connection®

Application
- Designed for agricultural, construction, and industrial environments. Slide the barbed end into a rubber hose and secure with the appropriate clamp or crimp-on hose ferrule to provide a reliable connection for air, water, and fluid transfer applications.

Features
- Engineered for maximum corrosion resistance and lasting performance
- Manufactured in the U.S.

Material
- 303 stainless steel

Specifications
- Thread: NPT
