Compression Comparison

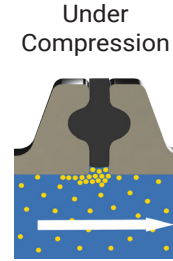

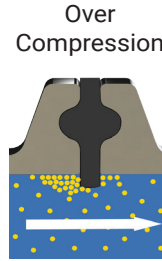

Clever Clamp

Gasket sits flush with tubing allowing particles to flow smoothly through the process line

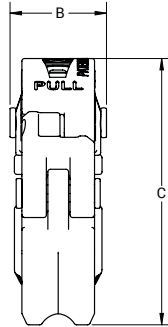

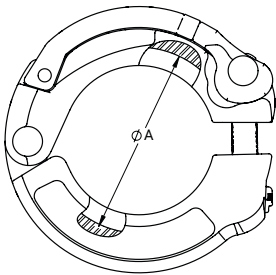

Other Clamp Styles

Gasket does not sit flush with tubing causing gaps where bacterial traps form in the process line

13SCC-Series Clever Clamp Dimensions

Clever Clamp Add-On Features

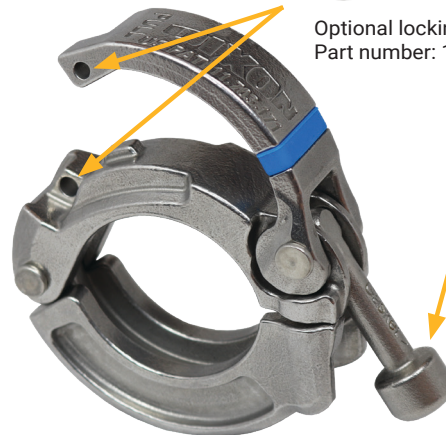

Compression pin for self-locking lever providing added security

Interchangeable
colored food grade
silicone I.D. bands for
customizable process
line identification

Optional locking cable seal
Part number: 13SCC-TAG-12B

Non-adjustable
rubber only shaft

Food Grade Silicone Color I.D. Bands - 25pcs/pack

Color	Part #
Red	13SCC-CB-R
Green	13SCC-CB-G
Blue	13SCC-CB-B
Yellow	13SCC-CB-Y
