316 Stainless Steel **Pipe Fittings**

Application

• Used to connect threaded ends of different sizes up to 1"

Features

- Enhanced performance: Our premium fittings boast a higher PSI compared to standard brass fittings, ensuring reliability and suitability for high-pressure flow applications
- · Made from 316 stainless steel for strength
- · Higher corrosion resistance than 304 stainless steel

Specification

ASTM A182 Ed 2019

316 Stainless Steel Pipe Fittings

371-Series - Female Hex Coupling

375-Series - Female NPTF x Male NPTF Adapter

373-Series - NPT Reducer Hex Bushing

302-Series - 90° NPT Female Pipe Elbow

304-Series - 90° NPT Street Elbow

169-Series - 90° NPT Male Pipe Elbow

306-Series - 45° NPT Street Elbow

308-Series - 45° NPT Female Pipe Elbow
