

The Right Connection®

D2C-Series Actuator Style Coupler

The D2C-Series style couplers work with the DBA-Series adapters for applications where automatic closure for the coupler is not desired.

Applications

- Suited for vapor recovery, suction pump line and other applications where it is necessary to easily drain the hose or pipe for cleaning
- Can also be used when product retention in a hose or pipe is desired and damage from accidental spill from an open coupler is not a concern
- Couplers work with the DBA poppeted adapters on page 94 in applications where automatic closure for the coupler is not desired

Features

- EZ Boss-Lock cam arms
- · Stainless steel locking lever standard
- Use with standard cam and groove dust plugs sized one size larger than the dry disconnect size
- Prevents spillage from normal and accidental disconnection of the connection

Materials

- Body: 316 stainless steel
- Internal components: 304 stainless steel
- Replacement parts are available; contact Dixon[®] for more information
