FGR Couplings
Rep E and Grip E Couplings

This new coupling is time saving and eliminates the need to weld, thread, or flange. It is lightweight and compact, detachable and reusable, absorbs vibration and movement, and has a reliable double-lip sealing system.

Rep E Coupling

Applications

- Construction, water management, industrial pipelines, ship building
- Designed for the quick installation without service interruption

Sizes

- Pipe O.D. sizes 1.315”-48”

Features

- Axial nonrestraint
- Standard EPDM seal (NBR and FKM also available as specials)
- Joins pipes of same or dissimilar material; suitable for metal and plastic pipe connections
- Metal strip insert (only replaceable component)

New Dixon part #	Description	Comparable to part #
05729360048	1-1/2” 316 stainless steel Rep E pipe coupling	STR35001
05729360060	2" 316 stainless steel Rep E pipe coupling	STR35151
05729360073	2-1/2” 316 stainless steel Rep E pipe coupling	STR35201
05729360088	3" 316 stainless steel Rep E pipe coupling	STR35351
05729360114	4" 316 stainless steel Rep E pipe coupling	STR35651
05729360141	5" 316 stainless steel Rep E pipe coupling	STR35901
05729360168	6" 316 stainless steel Rep E pipe coupling	STR36051

FGR Couplings

The Right Connection®

Grip E Coupling

Applications

- Construction, water management, industrial pipelines, ship building
- Designed for the quick installation without service interruption

Sizes

- Pipe O.D. sizes 1”-24”

Features

- Heavy duty lock bars
- Anchoring ring with conically stamped teeth
- Axial restraint
- Standard EPDM seal (NBR and FKM also available as specials)
- Joins pipes of same or dissimilar material; best for metal to metal connections
- Metal strip insert (only replaceable component)
